

Since 1997, Peak Scientific has reshaped the landscape for laboratory gas generators by stimulating its design engineers into some remarkable product developments. The Peak family extends to more than 100 international members, providing world-class service and support, seeing it collect The Queen's Award for International Trade in 2004, 2007 and 2011.

## Delivering peace of mind and improving supply chain efficiency

### Benefits of the SEKO Solution

- Importing raw materials from major suppliers worldwide
- Providing specialist customs consultancy
- Supported by a dedicated account management team
- Smoothing supply chain communication for Peak and its customers
- Saving time, money and hassle for the Peak Logistics team

“Since we started working with SEKO, we've seen our supply chain improve considerably. It is vital that our components and generators arrive safely to our customers, SEKO Logistics have delivered on their promises.”

Global Logistics Manager - Peak Scientific

INDUSTRIAL  
CASE STUDY

# The Peak Scientific story

## THE CHALLENGE

Peak Scientific was having problems exporting into China and needed help to ship vital gas powered generators into laboratories.

## THE SOLUTION

SEKO worked closely with the team at Peak to quickly provide an efficient and reliable logistics service, as well as customs consultancy advice on areas such as import and customs regulations in China.

## THE RESULT

Peak Scientific now has a smooth supply chain into Asia and beyond, with clear communication both for the business and its customers. This saves time and money, and reduces stress for Peak's logistics team, which can now benefit from the reliability and trust which is provided by a dedicated team, for all their logistics needs.

"Peacefully  
generating  
gas power."
